Our Commitment to You

At Parker Bows, our mission is simple. Every day we strive to build quality outdoor equipment to enhance quality outdoor time. We do this by:

- Designing innovative products to improve our customer's success.
- Building the highest quality archery equipment available.
- Offering our customers a tremendous value for their hard earned dollars.
- Providing the best possible customer service.

We are proud to be an American company based in Virginia. We employ a dedicated and hard-working staff that take great pride in providing equipment and services that are second to none in the industry. We are also dedicated to partnering with like-minded American vendors and suppliers to support our manufacturing needs that employ thousands of other hard-working Americans.

A commitment to quality design and workmanship enables us to provide you, our customer, a No Nonsense Lifetime Warranty. All of our compound bows and crossbows are warrantied to the original owner to be free from defects in materials and workmanship. If there is a problem, call us and we'll do everything we can to make it right. It's that simple.

So whether you already own a Parker or you're thinking about buying a new Parker, we appreciate the opportunity to provide you with quality equipment at a reasonable price and backed by the best warranty and customer service in the industry.

Good Hunting,

The Parker Bows Team

CROSSBOW ARROWS

Crossbow Discharge Arrow with Capture Nock

Item# 38-3371

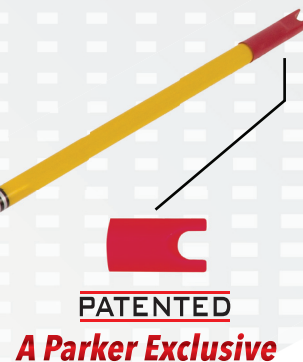

REDHOT
CROSSBOW ACCESSORIES

FEATURES

- Solid fiberglass construction for superior strength and durability.
- Point is 100% machined steel construction.
- Capture Nock design for safe shooting - eliminates the possibility of an accidental dry-fire that would damage your crossbow.
- Bright yellow shaft with a red Capture Nock for high visibility.
- Heavy-duty design and construction will last for years.
- Designed to be used with all major brands of crossbows.

SPECS

- Overall Length: 23.25"
- Mass Weight: 1600 grains
- Nock: RED HOT Capture

- Safely, easily and quickly discharge your crossbow.
- Avoid using and breaking one of your hunting arrows.
- Blunt point with 0.75" flange minimizes ground penetration.
- Simple to use: 1) Load the RED HOT discharge arrow, 2) Aim your crossbow at soft, level ground 6-10 feet in front of you, and 3) Shoot - recovery is simple.
